CITY OF SKOPJE

UMPRUM

CZECH CHAMBER OF ARCHITECTS

ARE HONOURED TO INVITE YOU AT THE EXHIBITION

## **UNSEEN SKOPJE**

With public lecture by Prof. Ognen Marina

Thursday, September 10, 2015 – start at 17:30

UMPRUM Gallery

The visions for the city of Skopje have been presented in the exhibition UNSEEN SKOPJE through four physical models of historic urban plans depicting the fundamental shifts in the ideas and concepts of the city. The plans and models presented at the exhibition enable us to understand the desires and fears of the citizens of Skopje throughout the history, confronted with the challenges of the 20<sup>th</sup> Century and embedded in the visions for the city, complementing our knowledge and understanding of the city through new and unprecedented perspective. The exhibition is a work of Ognen Marina and BojanKaranakov, professors at the Faculty of Architecture, University Ss. Cyril and Methodius in Skopje and has been developed within the frame of research project “Skopje – city models”.
