

MASTER THESIS 2014/2015

Mentee:

Prof. d-r Aneta Hristova-Popovska

Theme:

“CULTURAL DISTRICTS – NEW URBAN ARCHITECTURAL MEDIA”

Subject of investigation are the objects and spaces of public manifestation of the Macedonian urban cultural diversity and the capacity of this contemporary cultural map for production of innovative architectural environments.

The particular research works investigate the diversity of forms of the public space, mainly the urban space, through the phenomenological prism of the human and institutional relations and polarities that are manifested on the diversified cultural map of Republic of Macedonia. Macedonian cities with their local specificities are subject to a design interest in the tasks of a different rank and a program that primarily results from the local cultural context.

Key words:

Architecture of: multimedia, visual and performative arts (exhibitions, theater, film, music); libraries, educational and cultural centers

Locations:

The candidates propose their own subject of investigation
